WHO WE ARE

For over 30 years, The Spring Centre has been creating a caring, nurturing environment where children and young people with additional needs can thrive. We help children with a wide range of additional needs and disabilities, including mild to severe learning disabilities, Cerebral Palsy, Down's Syndrome, Autism Spectrum Conditions, children who have not been formally diagnosed, and any child who would benefit from our specialized support.

Our services are designed to provide help and support when and where it's needed most, delivered by trained, qualified staff - some of whom are living through the experience of supporting a child with additional needs themselves.
